**DESCRIPTION**

A connector sealing kit is available for electrically adjustable RAMCO mirrors.

- Order one kit #064904 for each set of two flat type mirrors to modify.

**OR**

Order one kit #064905 for each set of two combination flat and convex type mirrors to modify.

- Extractor tool #682257 is needed to carry out these modifications; order if necessary.

**Note:** Some vehicles included in the above application listing may already be fitted with watertight connector seals. Verify connections on your vehicle before ordering any material.

## MATERIAL

Part No.	Description	Qty
064904	Connector Sealing Kit for one set of two RAMCO Flat Type Electrically Adjustable Mirrors	1
064905	Connector Sealing Kit for one set of two RAMCO Combination Flat and Convex Type Electrically Adjustable Mirrors	1
682257	Extractor Tool	1

**Note :** *Material can be obtained through regular channels.*

## PROCEDURE

**Warning :** *Park vehicle safely, apply parking brake, stop engine and set battery master switch(es) to the OFF position prior to working on the vehicle.*

1. Remove a mirror as explained in the Maintenance Manual, section 18.
2. Observe if the connector is fitted with watertight seals.
  - If connector is not equipped with seals, order the appropriate sealing kit and carry out modifications as per instructions included in kit.
  - If connector is already equipped with seals, it is not necessary to order sealing kit.
