DESCRIPTION

Vehicle identification number (VIN) plates on above mentioned vehicles have been incorrectly stamped due to an unfortunate technical problem. VIN's on these vehicles do not comply with requirements of the US Federal Motor Vehicle Safety Standards and Regulations part 565 nor with FMVSS 115 of the Canadian Federal Motor Vehicle Safety Standards and Regulations. Indeed, the ninth digit which is the check digit, was attributed an incorrect value, therefore invalidating the entire number and the vehicle's registration. This bulletin is a **recall campaign**.

PROCEDURE

Warning: Park vehicle safely, apply parking brake, stop engine and set battery disconnect switch(es) to the OFF position prior to working on the vehicle.

1. Remove original plate (Fig. 1).
 On H3 series vehicle, it is located near the left lower corner of windshield.
 On XL series vehicle, it is located near the right lower corner of windshield.
