X3-45 VIP motorhomes Model Year : 2025 - today	From 2P9BS3493SC110698 up to today	

DESCRIPTION

This maintenance information is to inform you of the new **Better Brake Rule 2025** regulations which started to be enforced in California and Washington State on **January 1, 2025**. These new rules will have a direct impact on the brake pads installed on PrevoSt vehicles sold or repaired in California and Washington State. This regulation **only applies to vehicles manufactured after January 1st, 2025**. The new rule significantly reduces the allowable copper content in brake pads, limiting it to no more than 0.5% (Level-N). We need to ensure that any brake pads are compliant with this new copper limit. Starting January 1st, 2025, all brake pads sold in California and Washington State for vehicles manufactured after January 1st, 2025, must adhere to these updated standards. This includes both OEM and aftermarket brake pads.

- For all vehicles manufactured after January 1st, 2025 using the Knorr SN7 brakes, **the brake pads Level-N 610079 must be installed in replacement of the Level-B 610072**. They will be available in our Service Centers in California.
- For vehicles X3-45VIP, starting in January 2025 with the introduction of the new IFS, we will be using a different OEM supplier (Meritor) for the front axle brakes, while the rear axle will continue to use the same Knorr SN7 brakes. **The brake pads Level-N 24577901 must be installed on the Meritor front axle calipers.**
