INFORMATION**

Mi98-22

DATE : May 1998	SECTION : 16
SUBJECT : Replacement of Neway height control valve with Barksdale height control valve	

APPLICATION

Model	VIN
H3-41, H3-45 and VIP-45 Vehicles Model Year: 1994 - 1997	<p>V.I.N. REPRÉSENTÉZ ET IDENTIFIÉZ PREVOST CAR INC. STE-CLAIRE DORCHESTER, QUE., CANADA</p>
	From 2P9H33495R <u>1001012</u> up to 2PCV33491V <u>1011916</u> incl.

DESCRIPTION :

On the above mentioned vehicles, it is possible to replace the NEWAY height control valve with a BARKSDALE valve. Even if the NEWAY height control valve satisfies our general requirements, the BARKSDALE height control valve increases the airtightness and reduces the need for vehicle adjustments. The following kits are available:

VIP-45 and H3 Vehicles :

- The kit no 13 1455 is used for the front valve replacement;
- The two kits no 13 1454 are used for the left and right rear valve replacement.

Note : Material can be obtained through regular channels.
