Starting with the above-mentioned vehicles, Michelin tire 315/80 R22.5 XZA1 is no more available from the supplier. It will be replaced with Michelin tire 315/80 R22.5 XZA2. The new XZA2 "Energy" tire has several improved characteristics over the present XZA1 tire:

- Designed for long haul application;
- Fuel economy is 2 to 3% better than with the XZA1;
- Shoulder design is optimized for better handling and response;
- Additional elastic ply protects carcass working ply from bruising and penetration, helping to reduce downtime;
- Better original tread life and minimized irregular wear on free rolling axle position (tag & front);
- Better resistance to high temperature delaminating.

<b>NOTE</b>
